Badung, Bali

Fresh graduate in Information Systems from Atma Jaya Yogyakarta University with a strong interest in WordPress Development. I have hands-on experience in building, maintaining, and deploying WordPress websites, including improving layouts and responsiveness using custom CSS. I also have a background in web development projects and IT troubleshooting, supporting my ability to deliver reliable and user-friendly websites. I am an adaptive and responsible individual with strong problem-solving skills and a passion for creating effective web solutions.

Work experience

Double Six Group - Bali Nov 2025 - Present
Web Developer

- Successfully deployed 3 WordPress websites: Cocoon Bali, Double Six Group, and Watercress, ensuring responsive design and smooth user experience.
- Migrated page builder from Oxygen to Elementor, improving content management efficiency and reducing dependency on complex configurations.
- Currently developing and managing 3 websites in a staging environment (The Common Bali, Milk & Madu, Ulekan Bali) as part of ongoing development projects.
- Performed regular maintenance across 5+ outlet websites, including updates, bug fixes, and layout adjustments using custom CSS.

Dinas Komunikasi dan Informatika Command Center Kabupaten Badung - Bali Aug 2024 - Jan 2025
IT Support Technician Intern

- Resolved 10+ hardware and network issues (LAN/WiFi/Fiber Optic), ensuring minimal disruption to daily operations.
- Supported configuration of routers, switches, and access points, improving network stability across departments.
- Performed routine maintenance on 10+ IT devices, ensuring optimal performance and usability.
- Assisted in monitoring network topology to maintain system reliability and connectivity.
- Designed a step-by-step Wi-Fi login guide, reducing user confusion and support requests.
- Coordinated with team members to handle network disruption reports, improving response time and issue resolution.

Koperasi Kresna Dana Mandiri - Bali Dec 2023 - Feb 2024
IT & Administration Support Intern

- Migrated and managed 500+ customer records from legacy systems to a new system, ensuring data accuracy and consistency.
- Acted as a liaison between technical team and operational staff, supporting a smooth system transition.
- Provided customer support for loan applications and funding processes, improving communication and service efficiency.
- Processed credit administration data to support timely loan disbursement.
- Designed promotional vouchers to support member engagement initiatives.
- Assisted in developing Savings SOP documentation, improving operational workflow and standardization.

PT. Danaco Global Solusi (Oxy-System) - Bali Jan 2020 - Apr 2020
Website Developer Intern

- Handled product data migration from legacy systems, ensuring structured and accurate data transfer.
- Assisted in creating and organizing system documentation for development and maintenance reference.
- Developed a functional e-commerce website as a final project, implementing responsive layout and basic features.
